

SANU SHIFAN

MERN Stack Developer — Full-Stack Web Developer

 Github |  LinkedIn |  Portfolio |  sanushifankc@gmail.com |  +91 7591969469

PROFESSIONAL SUMMARY

Self-taught Full-Stack SaaS Developer with experience building scalable multi-tenant SaaS applications using MERN Stack, NestJS, Redis, Docker, and modern backend architectures. Currently working at NIFAMA Technologies Pvt. Ltd. developing production-ready SaaS platforms including restaurant ordering systems, campaign generation platforms, and scalable e-commerce infrastructure. Skilled in backend architecture, authentication systems, REST APIs, dashboard systems, frontend optimization, and cloud deployment using AWS EC2 and NGINX.

WORK EXPERIENCE

NIFAMA Technologies Pvt. Ltd.

Nov 2025 – Present

Full-Stack Developer

- Working on scalable SaaS applications with focus on backend architecture, multi-tenant systems, and dashboard ecosystems.
- Contributed to development of **MenuBex**, a restaurant SaaS platform featuring digital menu systems, QR ordering, tenant management, and customizable restaurant dashboards.
- Developed features for **FrameBex**, a SaaS campaign poster generation platform with dynamic template systems and user customization workflows.
- Currently developing a scalable SaaS e-commerce platform inspired by Shopify architecture with focus on tenant isolation, customizable storefronts, and admin management systems.
- Implemented authentication systems using JWT and worked on REST API architecture and frontend performance optimization.
- Worked with AWS EC2, NGINX, Docker, Redis, and modern deployment workflows.
- Collaborated on scalable system design using modular monolithic and microservice-oriented architecture concepts.

Freelance Full-Stack Developer

Jun 2025 – Present

- Built production-ready MERN applications with responsive UI systems and scalable backend architecture.
- Developed authentication systems, admin dashboards, payment integrations, and real-time features.
- Deployed applications using AWS, Vercel, Render, and Netlify.

Brototype

Aug 2024 – May 2025

Bootcamp Trainee

- Trained in full-stack web development using React.js, Node.js, and modern JavaScript ecosystems.
- Built practical MERN applications and collaborated using GitHub workflows including pull requests and code reviews.
- Worked on real-world projects including AI-assisted and chat-based applications.

PROJECTS

Gadgetory — E-Commerce Platform

- Developed a scalable e-commerce platform using MongoDB, Express.js, React.js, and Node.js.
- Implemented JWT authentication, Razorpay integration, admin dashboards, and advanced product filtering systems.
- Built responsive frontend interfaces with optimized product discovery experience.

Real-Time Chat Application

- Built a real-time messaging platform using React.js, Node.js, Socket.IO, and JWT authentication.
- Implemented typing indicators, read receipts, and optimized real-time communication workflows.

ATS Resume Generator

- Developed a dynamic ATS-friendly resume generation platform with responsive frontend architecture.
- Implemented customizable resume templates and optimized PDF generation workflows.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Responsive UI Development

Backend: Node.js, NestJS, Express.js, REST APIs, JWT Authentication, Redis

Architecture: SaaS Architecture, Multi-Tenant Systems, Microservices, Monolithic Architecture, Modular Monolithic Architecture, Scalable System Design

Databases: MongoDB, MySQL

DevOps & Deployment: AWS EC2, NGINX, Docker, Kubernetes, CI/CD Pipelines, SonarQube, Vercel, Render, Netlify

Tools & Platforms: Git, GitHub, Postman, Figma, NPM

AI Development Tools: Claude AI, Amazon Q, Kiro, Antigravity, Stitch AI

EDUCATION

Bachelor of Computer Applications (BCA)

Baithul Izza Arts and Science College, Kerala
Affiliated with University of Calicut

2021 – 2024

Higher Secondary Education — Computer Science

Kerala State Board

2019 – 2021
